WHAT IS OBSIDIAN

408 I'M A FROG POT

- Obsidian is a volcanic rock occurring as a natural glass formed by the rapid cooling of viscous lava from volcanoes.
- Extremely rich in silica (~65 to 80 %)
 - low in water
 - has a chemical composition similar to rhyolite.

WHAT IS OBSIDIAN

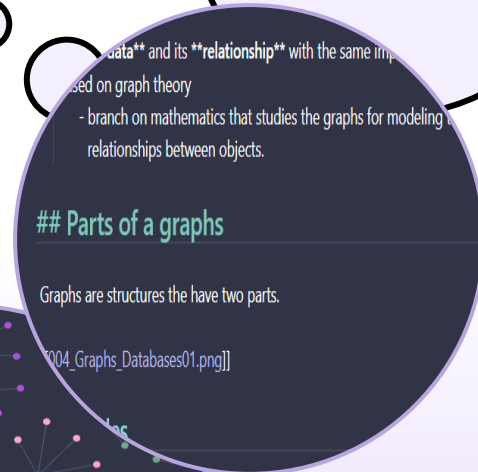

the software...

- Note-taking and management software
- Use markdown file
- Designed to organize and link notes in *Vaults*

WHY SHOULD YOU USE IT

- Interconnection of notes and visuals
- Local storage & Privacy
- Customizable & Extendable
- Markdown simplicity
- Cross platform support

data** and its **relationship** with the same imp
based on graph theory
- branch on mathematics that studies the graphs for modeling
relationships between objects.

Parts of a graphs

Graphs are structures the have two parts.

MAKING IT PRETTIER

The image shows the 'Style Settings' window in Obsidian. On the left is a sidebar with a list of settings categories: Options, General, Editor, Files and links, Appearance (highlighted in pink), Hotkeys, Core plugins, Community plugins, Core plugins, Backlinks, Canvas, Command palette, File recovery, Note composer, Page preview, Quick switcher, Templates, Community plugins, Advanced Slides, Advanced Tables, and Better Export PDF. The main panel displays the 'Appearance' settings. It includes a 'Base color scheme' dropdown set to 'Dark', an 'Accent color' picker, a 'Themes' section with a 'Default' dropdown and a 'Manage' button, a 'Current community themes' section with a 'Check for updates' button, a 'Font' section with 'Interface font', 'Text font', and 'Monospace font' each having a 'Manage' button, a 'Font size' slider, a 'Quick font size adjustment' toggle, and an 'Interface' section at the bottom.

Base color scheme
Choose Obsidian's default color scheme. Dark

Accent color
Choose the accent color used throughout the app. 🔄 🟠

Themes
Manage installed themes and browse community themes. 📁 Default Manage

Current community themes
You currently have 5 themes installed. Check for updates

Font

Interface font
Set base font for all of Obsidian. Manage

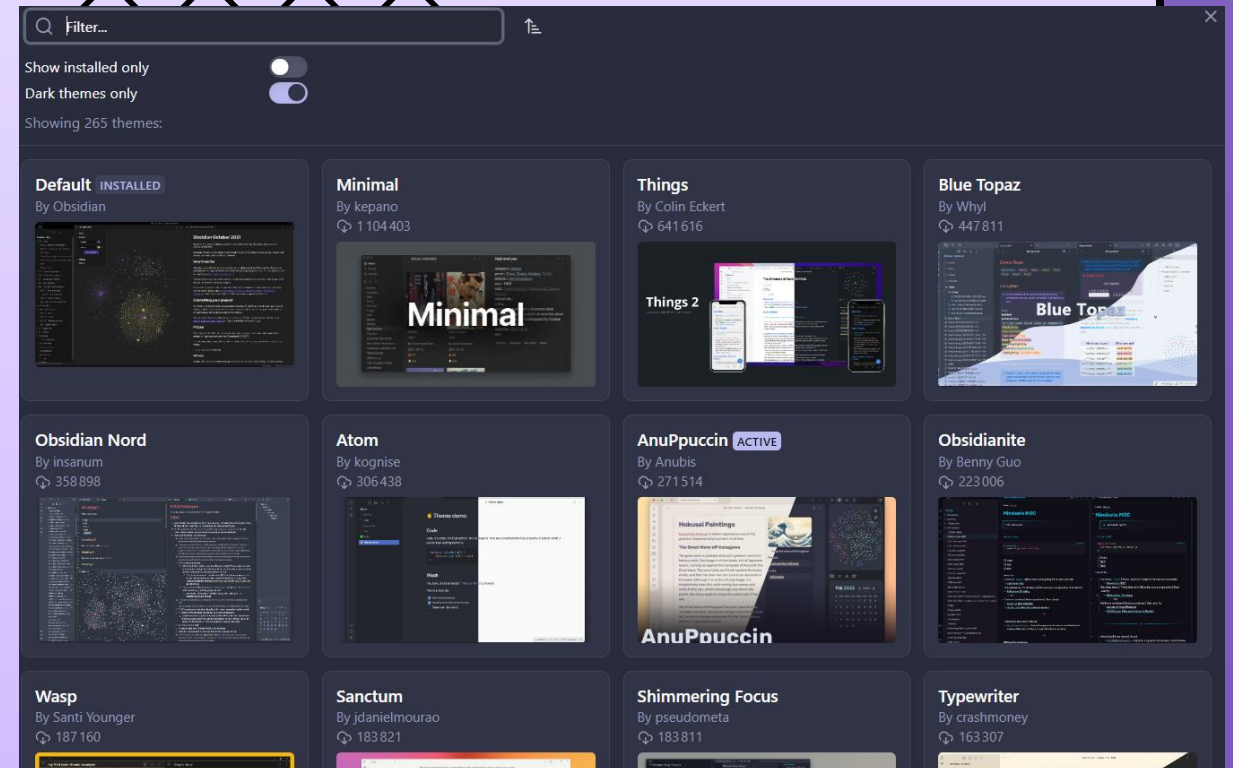

Text font
Set font for editing and reading views. Manage

Monospace font
Set font for places like code blocks and frontmatter. Manage

Font size
Font size in pixels that affects editing and reading views. 🔄 16

Quick font size adjustment
Adjust the font size using Ctrl + Scroll, or using the trackpad pinch-zoom gesture. 🔴

Interface

The image shows the 'Obsidian Themes' gallery. At the top is a search bar labeled 'Filter...'. Below it are two toggle switches: 'Show installed only' (off) and 'Dark themes only' (on). It says 'Showing 265 themes:'. The gallery displays a grid of theme cards. Each card shows a theme name, author, and download count, along with a preview image. The themes shown are: Default (INSTALLED, by Obsidian), Minimal (by kepano, 1 104 403), Things (by Colin Eckert, 641 166), Blue Topaz (by Why!, 447 811), Obsidian Nord (by insanum, 358 898), Atom (by kognise, 306 438), AnuPpuccin (ACTIVE, by Anubis, 271 514), Obsidianite (by Benny Guo, 223 006), Wasp (by Santi Younger, 187 160), Sanctum (by jdanielmourao, 183 821), Shimmering Focus (by pseudometa, 183 811), and Typewriter (by crashmoney, 163 307).
